

LAB10: ANIMATION

Points: 5

Submission Deadline

Lab is due on the date specified in Blackboard.
No late lab submissions accepted!!

Overview

Find several pictures of an object, i.e., zombie, kittens, etc.. Animate their position from left to right. Use border-radius to add speech bubbles that move with the object. This will entail using CSS positioning (absolute and relative).

Requirements

1. Find an object you will use to animate from left to right. Setup the keyframe animation or use transform/transition hover to animate both the object and the speech bubble across the screen.
 - a. Add some styling to make the page presentable.
 - b. Be creative and have fun!
2. Push pages, using GitHub Desktop:
 - a. Open GitHub Desktop. The software will automatically detect any changes you made within your local GitHub folder.
 - b. Fill out the summary field and click **Commit to gh-pages** button and then click the **Push origin** blue button
3. Verify the student main page is linking to *lab10* page correctly by visiting your GitHub Page website URL
4. Validate code either using Validate by Direct Input (copying/pasting the HTML) or Validate by File Upload using the HTML Validation: <https://validator.w3.org/nu/>

Submission

Submit to Blackboard assignment link:

1. your student GitHub Pages URL
