LAB08: RESPONSIVE STUDENT PAGE

Points: 5

Submission Deadline

Lab is due on the date specified in Blackboard.
No late lab submissions accepted!!

Overview

For this lab you will update your student page to make it responsive. You can see completed example on the **last page**.

Requirements

1. We will be modifying your current student page and make it responsive:

    a) Add viewport meta tag and any other meta tags we learned in this lecture

    b) On mobile devices (767px and smaller)

        a. **change the page to single-column layout for ALL your sections, there should be no content floated!!!**

        b. **ensure all your image fits within the mobile viewport screen size**

2. Feel free to add any additional styling for the mobile version, i.e. change background color for your sections/rows

3. After you are happy with the changes, create a *lab08* folder and copy the new responsive student page and images into that folder

4. Update your main student page linking to lab08, using link title of "Responsive Student Page"

4. Push pages, using GitHub Desktop:

    a. Open GitHub Desktop. The software will automatically detect any changes you made within your local GitHub folder.

b. Fill out the summary field and click **Commit to gh-pages** button and then click the **Push origin** blue button

5. Verify the student main page is linking to *lab08* page correctly by visiting your GitHub Page website URL

6. Verify your main student page is the responsive version!!!

7. Validate code either using Validate by Direct Input (copying/pasting the HTML) or Validate by File Upload using the HTML Validation: https://validator.w3.org/nu/

Submission

Submit to Blackboard assignment link:

1. your student GitHub Pages URL
